Greek Epigraphy™ for Windows®, version 3.0

Welcome to Greek Epigraphy for Windows. You now have at your fingertips professional quality fonts in TrueType® and Type 1 (PostScript®) font formats. These fonts contain the many specialized character shapes used in Greek epigraphy. The product also provides keyboard software for easy input of all characters in the fonts.

This document has six (6) parts:

1. Copyright and Trademark Information
2. System Requirements
3. Registering Greek Epigraphy for Windows
4. Contacting Linguist's Software
5. Uninstalling Greek Epigraphy for Windows
6. Greek Epigraphy for Windows Release History

1. Copyright and Trademark Information
   a. Copyright 2003-2011 Payne Loving Trust. All rights reserved. By copyright law this software program may not be modified or copied for others, whether or not sold.
   b. Greek Epigraphy, EpigraphyLSA, EpigraphyLSB, GreekLS US, and IkonyaLS trademarks of the Payne Loving Trust.

2. System Requirements
   a. Operating Systems:
      1) Requires Windows 7, Vista, or XP.
   b. Applications:
      1) Requires any application that allows users to choose from fonts installed in the system.
   c. Known problems:
      1) Some of your applications' default settings must be changed to avoid unexpected results when using these fonts and keyboard software. Complete instructions for doing this in Word for Windows are provided in the document Customize Word Settings.
      2) Overstriking accents and diacritics do not display or print properly in WordPad or WordPerfect. Instead, a space is added after the overstriking characters.
      3) Some applications (including Word for Windows) do not properly handle the Type 1 fonts. This installer will install the TrueType fonts since they work in all tested applications. Type 1 fonts must be installed manually, after first uninstalling the TrueType fonts. See chapter 3 of the User’s Manual for instructions.

3. Registering Greek Epigraphy for Windows
   a. If you purchased this product directly from Linguist's Software you already are registered and eligible for support and product upgrades.
   b. If you have purchased this product from a reseller you must mail or fax the blue registration card to us to register your purchase. If you no longer have the blue registration card please contact the sales office (425-775-1130 or sales@linguistsoftware.com) for registration information. You must register to be eligible for support and for product upgrades.

4. Contacting Linguist's Software
   a. TECHNICAL SUPPORT:

5. Uninstalling Greek Epigraphy for Windows
a. To uninstall this product run Uninstall in the Greek Epigraphy Program Group on the Start menu.
b. Alternatively, find the uninstaller program in the Programs Control Panel in Windows 7, the Program and Features Control Panel in Windows Vista, or the Add or Remove Programs Control Panel in Windows XP.

6. Release History
• Version 3.0 – March 29, 2011
  • The product is now Windows 7, Vista, and XP compatible.
  • Support for earlier versions of Windows has been dropped.
  • A new generation of keyboard driver has been included.
    • This keyboard driver installs from an icon installed on the Windows Start menu. The user no longer needs to go into Control Panel to set up a keyboard.
    • This keyboard driver (GreekLS US) is the same keyboard as is included in LaserGreek, LaserGreek II, LaserGreek Professional, and New Testament Manuscripts Font Collection. If you have set up this keyboard as part of any one of these other products you do not need to install this copy of the keyboard. Simply use the existing keyboard driver with the keyboard layout charts from this product.
• Version 2.0 – August 23, 2007
  • The five drachma character was added to the EpigraphyLSB font, typed with the 5 key.
• Version 1.0 – February 4, 2004
  • Initial release for Windows XP, 2000, NT4.0, Me, 98, 95
  • Fonts included (in plain style only, in both TrueType® and Type 1 formats):
    • IkonyaLS™ contains the basic Greek epigraphical alphabet and some of the specialized character shapes used in Greek epigraphy.
    • EpigraphyLSA™ contains many of the specialized character shapes used in Greek epigraphy.
    • EpigraphyLSB™ contains additional specialized character shapes used in Greek epigraphy.
  • All manuals provided in PDF format only:
    • Setup Manual guides user in setting up keyboard file;
    • User's Manual guides user in use of fonts and keyboard;
    • Keyboards manual provides printable keyboard layout charts;
    • Character Code Tables provide printable tables showing every character in the fonts;
    • Troubleshooting Manual provides solutions to the most common problems.
• The product installs with automated installer, which creates an entry on the Windows Start menu. Includes an uninstaller.
